

ACOUSTICAL
SOLUTIONS

OUR STORY

Over 30 Years Of Acoustic Expertise

For the past three decades, Novawall has proudly collaborated with architects, interior designers, commercial developers, and organizations, guiding them through the process of furnishing clients' spaces with premium acoustic products. Novaform is Novawall's newest acoustic line, offering a wide range of panelized acoustical products. Novaform offers both standard designs and completely custom solutions - crafting acoustic products to give users the sound environment they desire, to foster clarity, focus, and great work.

Novaform continues Novawall's long-standing tradition of excellent customer service and attention to detail. Let us help you make something quietly astounding.

The following is a highlight of the possibilities available with Novaform. For a more thorough catalog of Novaform's product offerings please visit www.novaform.design.

INSPIRATION

Inspired by Nature, Built for Sustainability

Novaform's designs draw inspiration from the inherent beauty of our planet. We are guided by the intricate patterns embedded in nature's most remarkable creations, from the smallest streams to greatest mountain ranges. Design choices are shaped by fundamental iterative structures observed in the natural world, even within its most untamed landscapes.

Novaform products are crafted with an unwavering commitment to sustainability, designed to meet both budgetary and environmental needs without compromising on quality. Products are constructed to minimize environmental impact, while remaining compliant with stringent fire and safety standards.

Novaform PET panels are...

100% polyester

Made from **60% recycled materials** to help keep plastic out of our oceans

Made with the recycled plastic equivalent of approximately **300 water bottles**

Produced with **zero manufacturing chemicals and no-waste byproducts**

Basalt

Orchard

PANELS + TILES

Walls offer an unparalleled canvas for transformation. Watch everyday settings come alive with dynamic energy and enhanced acoustic comfort when you transform ordinary surfaces into captivating, sound-sculpting statements.

Novaform's tactile-rich panels add pattern and movement to any room with solid, cut, and multi-dimensional options to explore.

BAFFLES + CLOUDS

Let your ceiling do the job of a tree canopy. Go from a roar to a respite with acoustical baffles and clouds.

Convert a noisy workplace into a serene environment while adding visual appeal. Customize the interior's ambiance with ceiling shapes and patterns, choosing from simple straight lines and grids to luxurious undulating waves and clouds.

Valley Baffles

Star Baffles

Snowdrift Screens

Bower Screens

HANGING SCREENS

Privacy and noise control are essential for productivity and focus. However, not all open environments are treated the same when combining style and sound quality.

Novaform screens are designed to complement wall panels, creating a cohesive look throughout any space. These solutions reshape open concepts into functional areas, prioritizing optimal flow and efficiency.

Incorporate versatile screens into designs to achieve privacy without compromising the client's envisioned aesthetic.

Custom Graphics

Woodgrain

TEXTURES + GRAPHICS

Custom-printed panels pair graphic flexibility with measured acoustic control to support clear, intentional design.

Custom printing gives solid panels new life with visual textures such as wood grains, masonry, and stone while preserving their acoustical properties. Bring your voice and style to the forefront by adding a logo or custom wall graphics. In exhibit settings, printed panels inform and engage while helping keep crowd noise under control.

Novaform's custom-printed panels expand surface expression without compromising acoustic performance.

Straight Canes

Beveled Canes

WRAPPED FOAM BOLSTERS

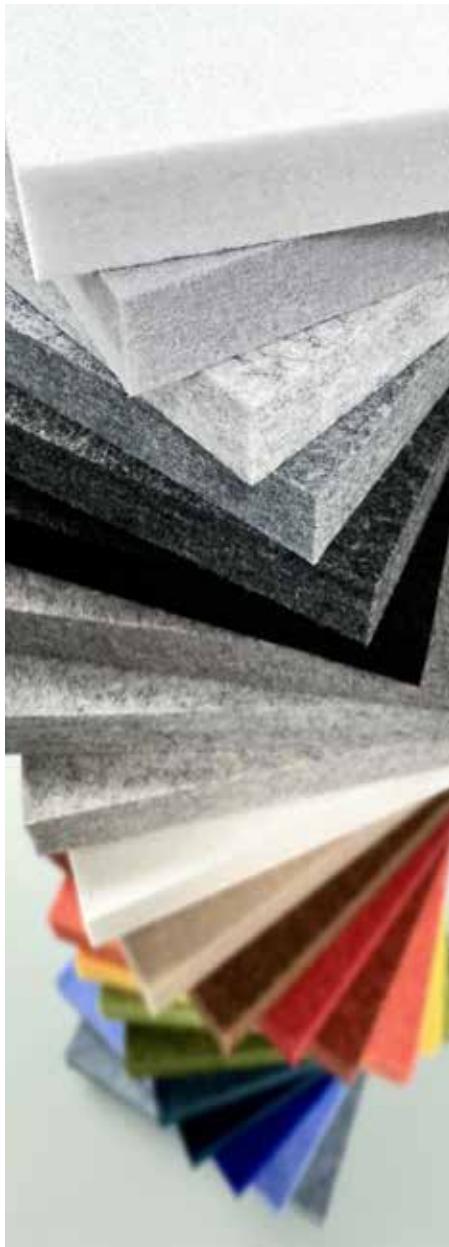

Sagano, one of Novaform's specialty items, provides an elegant finish to any wall without sacrificing aesthetic or sound quality. This is a fabric-wrapped foam bolster available in standard or custom configurations, utilizing straight, diagonal bevel-cut, and horizontal bevel-cut canes.

Sagano offers an array of patterns paired with fast and easy installation. Wrapped canes will accommodate Novaform felts, Novaform-partner felts, and most commercial fabrics.

PET PANEL COLORS

Acoustic Panels

Novaform panels are available in 30 colors plus an additional 16 printed woodgrain looks. Pair panels with felt tops for additional color harmonies.

FELT COLORS

High-End Felts In Over 200 Hues

Novaform brings fine design and attention to detail together through a selection of high-quality felts to fit any aesthetic. Felts can wrap Sagano canes or face our PET acoustical panels.

Novaform's PET felts and Novaform-partners' wool and blended felts expand your palette with endless panel and felt color combinations. Novaform's partner felts include Camira's Blazer, Blazer Lite, and Sonus lines and Gabriel's Soul and Soul Melange lines.

OUR WORKFLOW

Ready To Transform Your Envisioned Design Into An Experience?

1. Consultation

Open up a conversation with our design team to discuss your project's acoustic needs, design preferences, and budget. Send us an email at novaform@novawall.com.

2. Design & Customization

Designs, dimensions, and details for ready-to-produce products are found at www.novaform.design. Not sure what your next space needs? Have a vision but the exact product is not featured in our offerings? See an opportunity to customize one of our designs? Collaborate with our in-house designers to explore material options, color selections, and custom finishes that align with your vision. Our estimating team will build a job quote for you.

3. Production

Sustainable materials, an appreciation for tried and true joinery techniques, and a hands-on approach are used to craft your acoustic solutions with precision in our Metro DC facility.

4. Delivery & Installation

All good to go? Have your order shipped to you or your client, or arrange for pickup at our warehouse.

Need a local installer? Novawall has installation partners across the U.S. We'll connect you.
