

ACOUSTICAL
SOLUTIONS

OUR STORY

Over 30 Years Of Building Better Spaces

The industry of innovation is evolving faster than ever, and designing a successful interior space is not as simple as it sounds.

For the past 3 decades, Novawall has proudly collaborated with architects, interior designers, commercial developers, and organizations, guiding them through the process of furnishing clients' spaces with premium acoustic products. However, modern interior environments demand even more.

Novaform, Novawall's specialty division, offers a tailored experience with both standard and custom solutions - crafting panelized acoustic products to give clients the competitive edge they envision for their space.

The following is a highlight of the capabilities of Novaform. For a more thorough catalog of Novaform's product offerings please visit www.novaform.design.

INSPIRATION

Inspired by Nature, Built for Sustainability

Novaform's designs draw inspiration from the inherent beauty of our planet, guided by the intricate patterns embedded in nature's most remarkable creations, ranging from the minute geometry of crystal formations to the expansive grandeur of mountain ranges. Design choices are shaped by fundamental iterative structures observed in the natural world, even within its most pristine and untamed landscapes.

Novaform products are crafted with an unwavering commitment to sustainability, designed to meet both budgetary and environmental needs without compromising on quality. Products are constructed to minimize environmental impact, while remaining compliant with stringent fire and safety standards.

Novaform PET panels are...

100% polyester

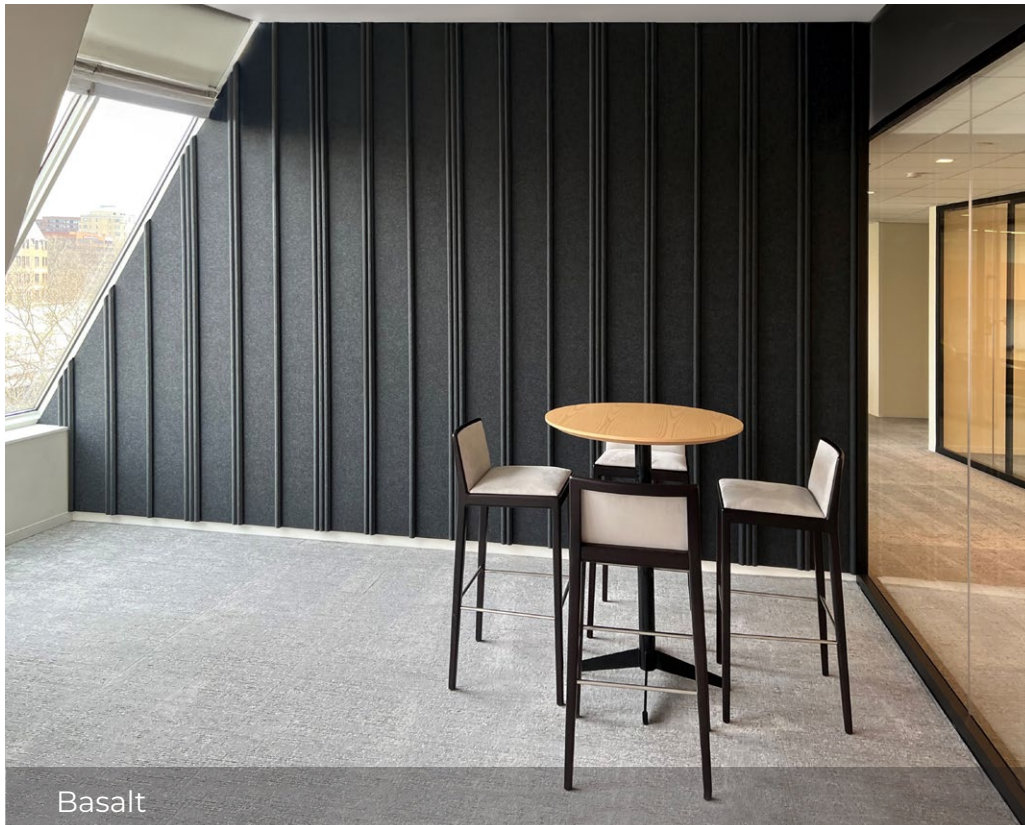

Made from **60% recycled materials** to help keep plastic out of our oceans

Made with the recycled plastic equivalent of approximately **300 water bottles**

Produced with **zero manufacturing chemicals and no-waste byproducts**

Declare.

Basalt

Orchard

PANELS + TILES

The four walls surrounding any space should inspire individuals to think bigger, bolder, and more inventively than ever before.

Novaform's tactile-rich walls add pattern and movement to any room with solid, cut, and multi-dimensional options to explore. Transform small or large areas and equip teams and partners with an environment that includes artful designs, enhancing both sound quality and aesthetics.

Design spaces with flexible wall enhancements that leave people feeling creative and refreshed.

CEILING

BAFFLES + CLOUDS

Whether clients envision a minimalist or trendy space that reflects their style, it should feel distinctly personal.

Enhance a ceiling's appearance and reduce noise with Novaform's baffles and clouds. Convert a noisy workplace into a serene environment while adding visual appeal. Customize the interior's ambiance with ceiling shapes and patterns, choosing from simple straight lines and grids to luxurious undulating waves and clouds.

Watch everyday settings come alive with vibrant energy when turning ordinary ceilings into overhead canopies.

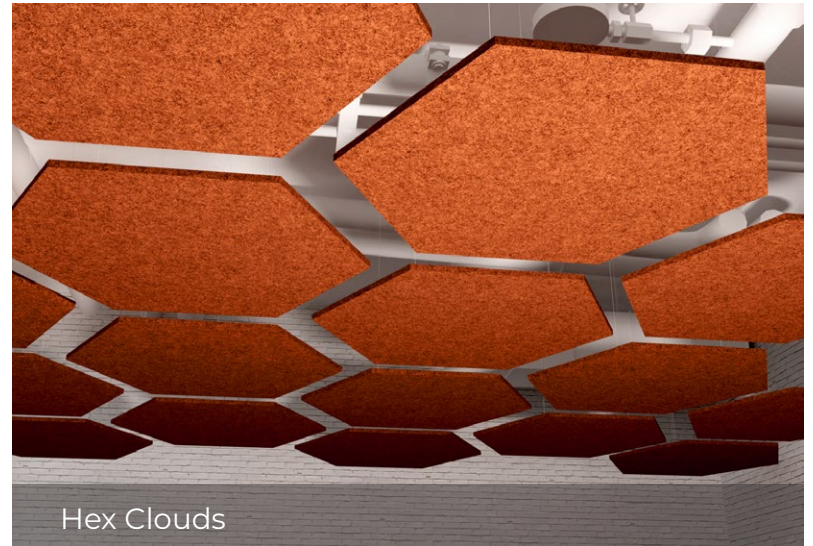

Flow Baffles

Box Baffles

Grid Baffles

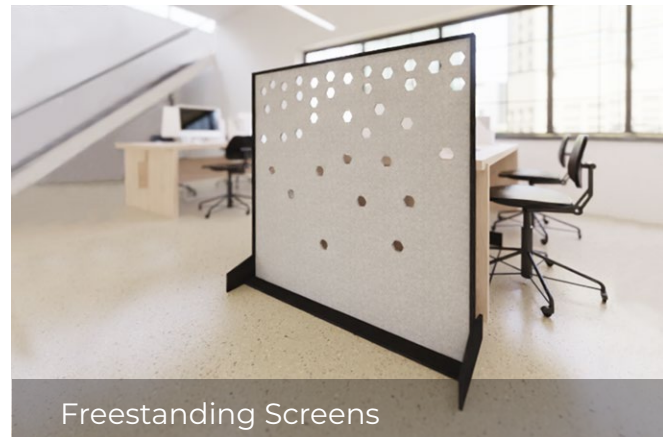

Hanging Screens

Desk Screens

Freestanding Screens

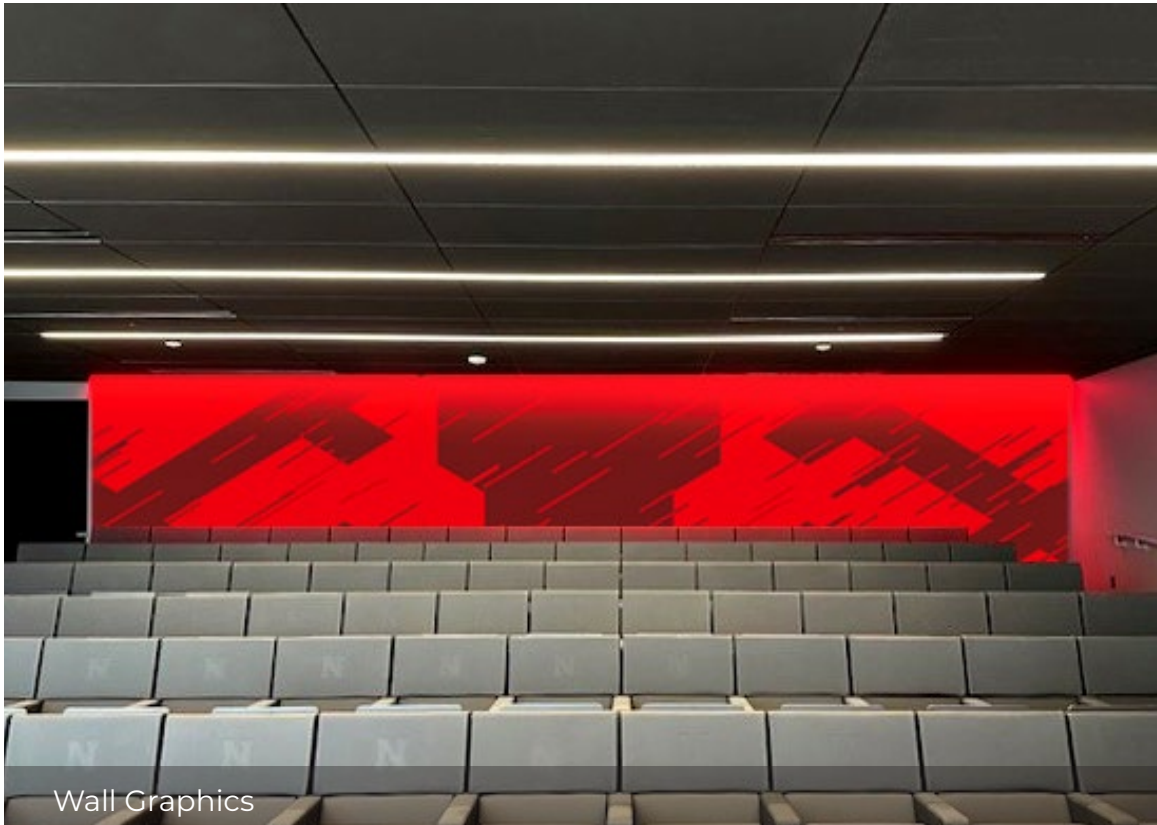

SCREEN

HANGING + DESK + FREESTANDING

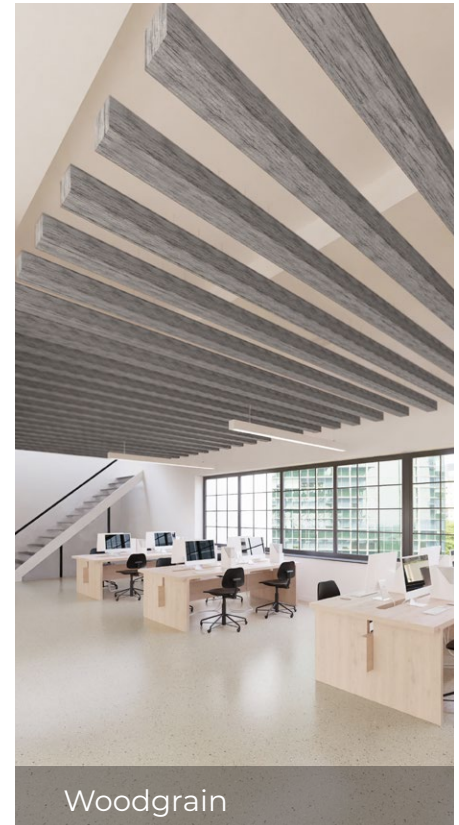

Privacy and noise control are essential for productivity and focus. However, not all open environments are treated the same when combining style and sound quality.

Novaform screens are designed to complement wall panels, creating a cohesive look throughout any space. These solutions reshape open concepts into functional areas, prioritizing optimal flow and efficiency.

Incorporate versatile screens into designs to achieve privacy without compromising the client's envisioned aesthetic.

Wall Graphics

Woodgrain

GRAPHICS

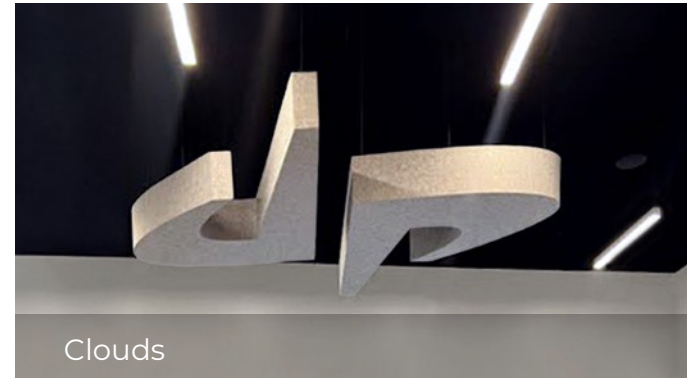

Novaform's printed custom graphics on standard or specialty panels showcase a brand's personality and purpose with stunning designs that reflect its vision and values.

Clients will soon find they're not so easily forgotten when infusing personality into their immediate environment.

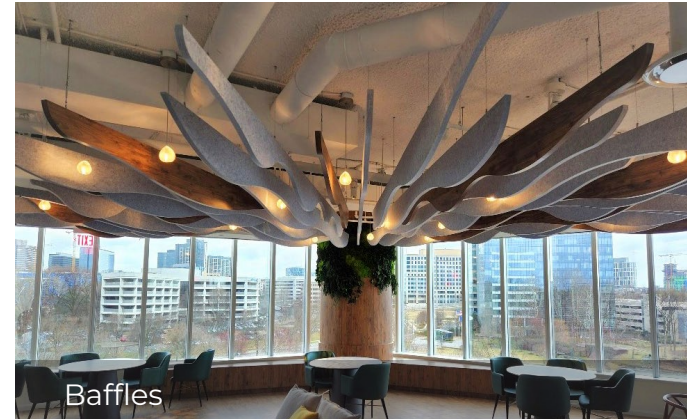

Custom printing allows solid panels to take on a new life with visual textures like wood grains, masonry, and stone while maintaining their acoustical properties.

CUSTOM

DESIGN EXPERTISE

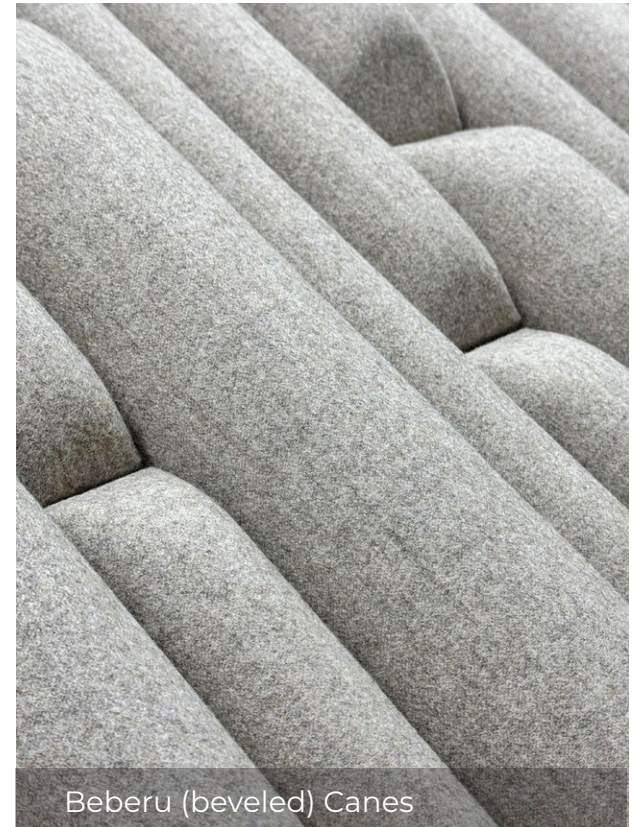

Every project has a specific vision for interior design, which must also align with the client's growth goals and ambitions.

Novaform brings expressive design concepts to life with a team of forward-thinking experts in Architecture, Industrial Design, Fine Art, and Fabrication.

Build a custom project with a dedicated team of designers and artisans to execute any envisioned interior space.

Straight Canes

Beberu (beveled) Canes

SAGANO

WRAPPED FOAM BOLSTERS

Thoughtful design goes beyond decoration, paying attention to the finer details of any space.

Sagano, Novaform's fabric-wrapped foam bolster, provides an elegant finish to any wall without sacrificing aesthetic or sound quality. Available in straight, diagonal-cut (Hasu), or bevel-cut (Beberu) canes, Sagano offers an array of patterns paired with fast and easy installation. Wrap canes with Novaform felts, Novaform-partner felts, or most commercial fabrics.

FELT COLORS

High-End Felts In Over 200 Hues

Novaform partners with Gabriel Fabrics and Camira Fabrics, bringing design and attention to detail together through a selection of high-quality felts to fit any aesthetic. Felts can wrap Sagano canes or face our PET acoustical panels.

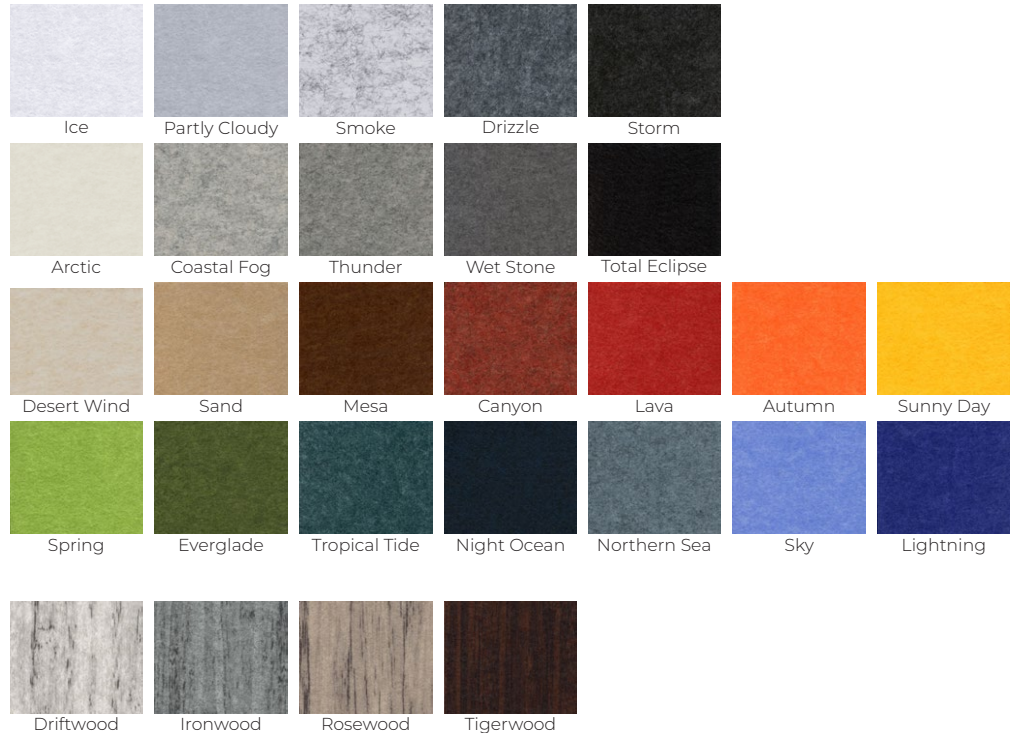

Expand your palette with Novaform's PET felts and Novaform-partners' wool and blended felts, including Gabriel's Soul & Soul Melange lines and Camira's Blazer, Blazer Lite, & Sonus lines.

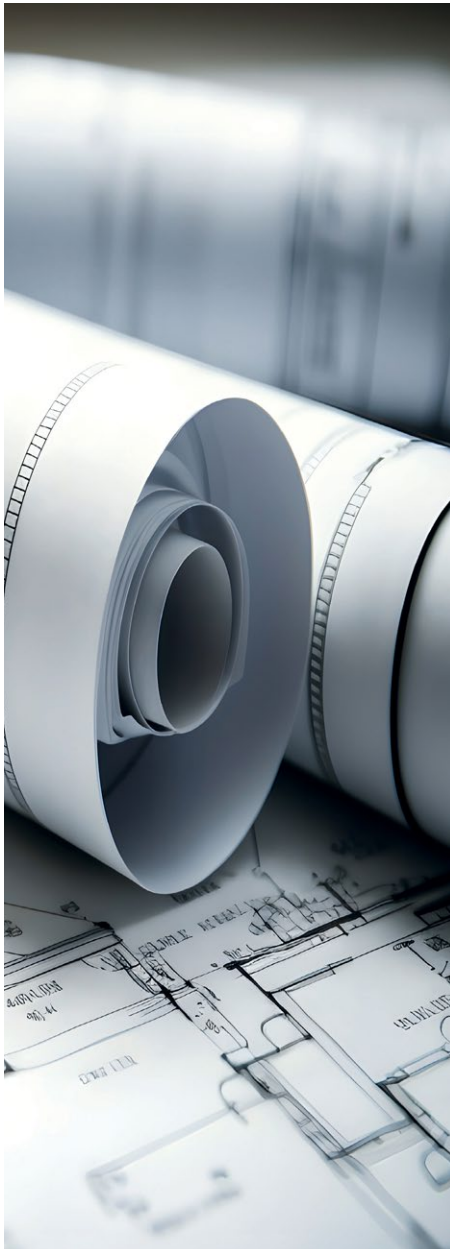

PET PANEL COLORS

Acoustic Panels

Novaform panels are available in 24 colors plus an additional 4 printed wood grain patterns. Be subtle or be bold. Pair the panels with felt tops for additional color harmonies.

OUR WORKFLOW

Ready To Transform Your Envisioned Design Into An Experience?

1. Consultation

Open up a conversation with our design team to discuss your project's acoustic needs, design preferences, and budget. Send us an email at novaform@novawall.com.

2. Design & Customization

Designs, dimensions, and details for ready-to-produce products are found at www.novaform.design. Not sure what your next space needs? Have a vision but the exact product is not featured in our offerings? See an opportunity to customize one of our designs? Collaborate with our in-house designers to explore material options, color selections, and custom finishes that align with your vision. Our estimating team will build a job quote for you.

3. Production

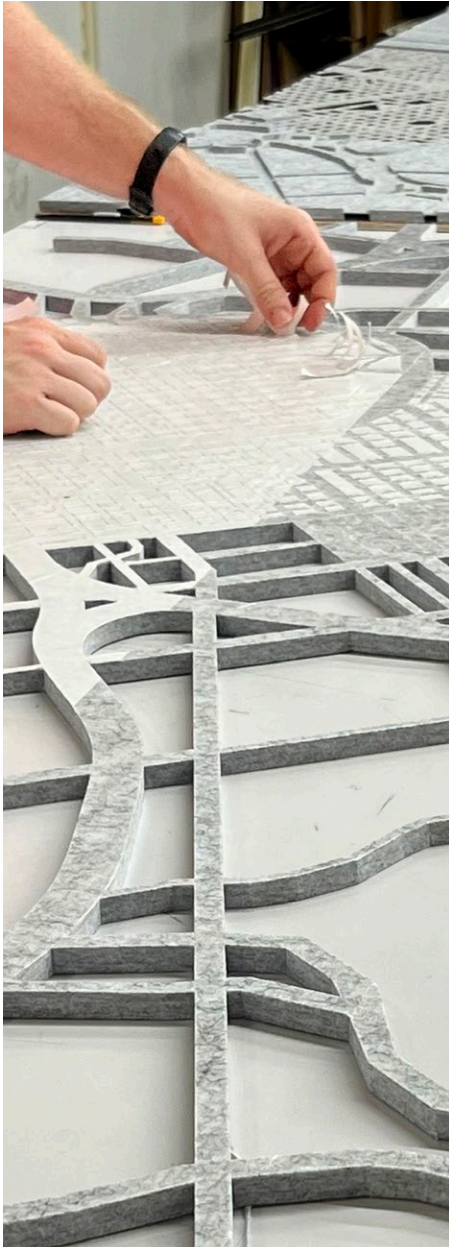

Sustainable materials, an appreciation for tried and true joinery techniques, and a hands-on approach are used to craft your acoustic solutions with precision in our Metro DC facility.

4. Delivery & Installation

All good to go? Have your order shipped to you or your client, or arrange for pickup at our warehouse.

Need a local installer? Novawall has installation partners across the U.S. We'll connect you.
